DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Thursday, 21 January 2021 at 05:33 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution will persist at Low levels on Thursday. The cold, breezy weather conditions coupled with showers across northern and western parts helping to prevent air pollutants from building up.

Tomorrow: Little change is expected in the weather conditions, leading to air pollution levels remaining Low across the UK on Friday.

Outlook: Air pollution is forecast to persist at Low levels during the outlook period, as the cold weather with occasional wintry showers continues for most parts.
